VCR

Simplex slitter and rewinder able to convert primary big rolls into big diameter bobbins from 50 mm and upwards

Products

- Adhesives
- Foams
- Laminates
- Nonwovens

Flexibility

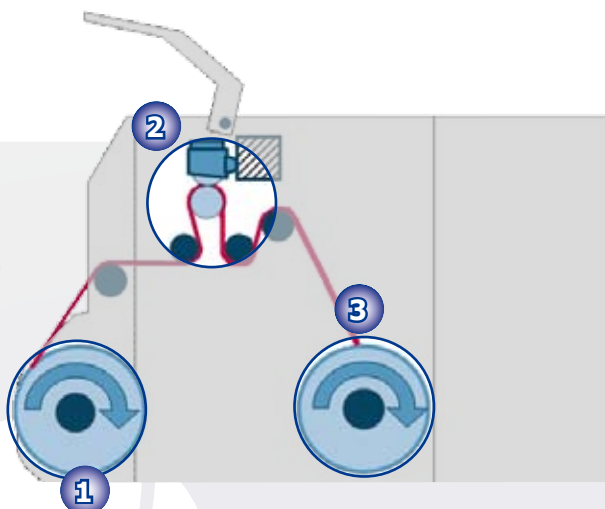

- **A wide range of cutting systems**, combined with easily adaptable production parameters, enables the slitting of most stable woven and nonwoven products
- Stand alone and compact machine

Quality

- **Low and controlled winding tension** ensuring a perfect product quality
- Rewinding on **one cantilevered shaft** for big diameter bobbins
- **Precision guiding** to minimize selvage scrap and optimize the cutting accuracy
- **Crush, shear or razor blades cutting** for a perfect slitting quality whatever the type of product and the application

Productivity

- Only **1 operator** is required to handle the machine
- Simple and cost-effective machine

1 Integrated unwinding station

2 Cutting systems

3 Simplex centre winder

Unwinding
Integrated unwinding station for big mother roll diameter

Cutting
1 cutting system (crush, shear or razor blades)

Rewinding
Simplex centre winder
OPTION : Scrap extractors

Technical specifications

	Standard	Option	● OPTIONS :
● Mother roll :			
Max width :	1,500 mm	2,100 mm	2 cutting systems (crush, shear or razor blades)
Max. diameter :	1,000 mm	900 mm	Scrap extractors
Max. weight :	200 Kg	950 Kg	Cantilevered rewinding shaft to ease unloading operations
● Secondary roll :			
Max. diameter :	1,000 mm	900 mm	
Max. weight (per shaft)	200 Kg	950 Kg	
● Max. running speed :	60 m/min	100 m/min	
● Mini. slitting width :	50 mm	20 mm	
● Mini. tension (per shaft):	10 N	50 N
